SUMMARY

Motivated and passionate Computer Science Engineering student with a strong foundation in Java Full Stack Development. Skilled in Java, Spring Boot, React, MySQL, HTML, CSS, and JavaScript, with hands-on experience building full-stack web applications. Eager to contribute to innovative software development projects while continuously enhancing my technical expertise and problem-solving abilities.

EDUCATION

JJ College of Engineering and Technology, Tiruchirappalli

Bachelor of Engineering (B.E.) – Computer Science Engineering, Current CGPA: 8.55 / 10 Expected Graduation: 2028

St. Anthony's Higher Secondary School

Higher Secondary Certificate (HSC) Year of Completion: 2024

St. Anthony's Higher Secondary School

Secondary School Leaving Certificate (SSLC) Year of Completion: 2022

PROJECTS

CareerPilot AI – AI-Powered Career Guidance Platform | Technologies: Java, Spring Boot, React, MySQL

- Developed an AI-powered career guidance platform to help students prepare for placements.
- Designed secure authentication and role-based access for students and administrators.
- Built personalized career assessment modules and learning roadmaps.
- Created dashboards to monitor learning progress and achievements.
- Developed responsive user interfaces using React.

Smart Campus Complaint Portal | Technologies: Java, Spring Boot, React, MySQL

- Built a complaint management portal for educational institutions.
- Implemented complaint registration, tracking, and resolution workflow.
- Developed separate dashboards for students and administrators.
- Added status updates and complaint management features.
- Designed responsive interfaces for desktop and mobile devices.

Banking Management System | Technologies: Java

- Developed a console-based banking application.
- Implemented customer account management.
- Added deposit, withdrawal, balance enquiry, and transaction features.
- Applied Object-Oriented Programming concepts throughout the project.

Bus Management System | Technologies: Java

- Developed a console-based bus management application.
- Implemented bus registration and passenger management.
- Used Java Collections Framework for efficient data handling.
- Designed a menu-driven application using OOP principles.

TECHNICAL SKILLS

Java

JavaScript

HTML5
CSS3
React.js
Bootstrap
Spring Boot
RESTful APIs
MySQL
Git
GitHub
Visual Studio Code
IntelliJ IDEA
Eclipse IDE
Object-Oriented Programming (OOP)
Data Structures
Database Management System (DBMS)
MVC Architecture
REST API Development
Problem Solving
Analytical Thinking
Quick Learning Ability
Team Collaboration
Communication Skills
Adaptability
Time Management

CERTIFICATIONS

Java Programming
SQL Fundamentals
Web Development
Git & GitHub

ACHIEVEMENTS

- Developed multiple full-stack web applications using Java, Spring Boot, React, and MySQL. - Built AI-based academic and career guidance solutions. - Continuously improving software development skills through hands-on projects. - Strong academic performance with a CGPA of 8.55.

LANGUAGES

- Tamil (Native) - English (Professional Working Proficiency)

DECLARATION

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief.
